CHUKKA SAHITHI

Hyderabad, India | +91 9818065038 | sahithichukka@gmail.com
GitHub | LinkedIn

Professional Summary

Computer Science undergraduate with hands-on experience in AI-assisted coding, full-stack application development, Python, Java, SQL, and React.js. Experienced in developing NLP-based applications, multilingual chatbot solutions, and responsive web applications. Familiar with Artificial Intelligence, Generative AI fundamentals, prompt engineering, REST APIs, and database management. Strong foundation in data structures, object-oriented programming, and software development, with an interest in building practical, scalable, user-focused solutions.

Technical Skills

Programming Languages: Python, Java, C, SQL, JavaScript
Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Design
Backend: Node.js, Express.js, REST APIs
Databases: MySQL, SQL Queries, Database Design
AI and Generative AI: AI Fundamentals, Generative AI, Prompt Engineering, Prompt Design, LLM Fundamentals, NLP, AI API Integration
Data Science and ML: Pandas, NumPy, Matplotlib, Scikit-learn, Data Preprocessing, Exploratory Data Analysis
Developer Tools: Git, GitHub, VS Code, Microsoft Excel
Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Experience

Full-Stack Development Intern *1 Year*
Qubez

- Gained practical experience in developing full-stack applications, working across frontend interfaces, backend functionality, and application integration.
- Used AI-assisted coding tools and prompt engineering techniques to support code generation, debugging, problem-solving, and development workflows.
- Built and enhanced web application features using modern development technologies and reusable components.
- Practiced integrating APIs, handling application data, and connecting frontend components with backend services.
- Strengthened understanding of software development workflows, code quality, debugging, and application testing.

Data Analytics Virtual Intern

- Used SQL and Python to analyze structured datasets and identify patterns supporting business insights.
- Performed data cleaning, preprocessing, visualization, and exploratory data analysis.
- Prepared analytical reports to organize findings and communicate data-driven insights.

Projects

Multilingual Chatbot *Python | NLP | Translation APIs*

- Developed an NLP-powered chatbot designed to understand user queries and generate responses in multiple languages.
- Integrated language detection and translation APIs to support multilingual communication and accessibility.
- Implemented text preprocessing and response-handling workflows to improve query interpretation and interaction.

Movie Theatre Booking Management System *React.js | JavaScript | HTML5 | CSS3*

- Developed a responsive movie ticket booking interface with movie listings, seat selection, and booking confirmation.
- Built reusable React components and managed application state to improve maintainability and interface consistency.
- Applied responsive design and component-based development to create a user-friendly booking experience.

Education

Andhra University College of Engineering
Bachelor of Technology in Computer Science and Engineering **CGPA: 7.46/10.0**
2022 – 2026

Certifications

- Software Engineer Virtual Internship

Achievements

- Developed software projects using Python and React.js.
- Built foundational knowledge of AI-assisted development and modern full-stack technologies.
